

# Story County Conservation Nature Camp 2020

## FROGS

June 22-26, 1:00-3:30 p.m.  
Naturalist: Heather Hucka

Dear Camper,

I hope you are ready for an exciting week! This camp's theme is **HABI-Camp!** Each day of camp we will explore the different needs of animals. We will discover many special habitats and search for whom you might find living there. Every day is filled with games, songs, activities, and FUN! I can't wait to see you there. ☺

### FOOD DAY

Everyone's got to eat. Learn what animals eat and how they find their food. Today, shorts are ok. Don't forget the bug spray!

### WATER DAY

What a wet and wild day! Water is everywhere and in everything. Dive into the different ways we all use water and how to get it. We might get wet, but we won't get muddy. ☺

### SHELTER DAY

Shelters come in all different sizes and shapes. Have fun discovering different ways animals stay safe. **PLEASE wear long pants today** so your legs will have some shelter from the prairie grasses!

### SPACE DAY

We will learn about something you can't see, hear, touch, or smell! Why is something so invisible so important? **This is another day for long pants and good hiking shoes!**

### ARRANGEMENT DAY

Let's put everything we have learned together. **Parents and siblings are invited to attend the PARTY at 3:00 Friday afternoon.**

### REMINDERS:

- ✓ The naturalists do not apply bug spray or sunscreen; please apply these before you arrive at camp.
- ✓ Frogs must wear long pants on Shelter and Space days.
- ✓ **Closed-toed shoes are a must everyday!**
- ✓ This is our planned itinerary, but it may change due to weather.
- ✓ If you have registered for a July FROGS, you will receive that camp's letter at a later date.
