Cabin:

Directions for Keypad Operations

The keypad installed on the cabin allows you to access
the cabin upon arrival.

Using the code listed above, follow these simple steps
to enter you cabin:

To Unlock

- Press the "EMTEK" button
- Enter your 4-digit user code
- You will hear a short beep and see a green LED flash
- Rotate the thumbturn

If you make a mistake during the entry of your code you
will see 1 red LED flash and hear 2 short beeps.
Wait 20 seconds and re-enter your user code.

To Lock your cabin when you are not there:

- Press the "EMTEK" key
- Rotate the thumbturn

Important

Please make sure your door is **LOCKED** at the end of your stay before departing.

Thank You
