

EXPERIENCE the BOONE RIVER

from Webster City to the Des Moines River

The **Boone River** starts in Hancock County and zigzags nearly 100 miles through Wright and Hamilton counties before emptying into the Des Moines River north of Stratford.

The Department of Natural Resources has designated the 26-mile stretch from Webster City to its confluence with the Des Moines River as a Protected Water Area because of its outstanding scenic and natural qualities. Throughout this stretch, the stream bed gradient becomes increasingly steeper and cuts through a deep, heavily wooded valley. The frequent riffle-pool areas provide excellent fishing for smallmouth bass and channel catfish. Walleye and northern pike are periodically caught and an occasional flathead catfish is taken from the deep pools associated with the outside bends in the river.

Several Mills were built on the Boone River during the mid-1800s and give this stretch an intriguing historical background. One mill was located near Bever Bridge and was called **Bone's Mill**. This mill, built in 1854, had a colorful history, including its continual battle with ice and flood waters, its important business

function, a dash of romance, an unsolved murder and the thunderous explosion which ended its existence.

Tunnel Mill access, located about 16 miles downstream of Webster City, is at the site of the mill built by Robert Watson in the mid-1800s. The 400 ft tunnel was built to bypass a sweeping horseshoe curve, thus increasing the natural current by a steeper fall to the turbine. Remains of the dam can still be seen on the north side of the ridge.

Bell's Mill Park is the site of a mill built in 1853 by Methodist preacher David Eckerson, which found its way to the Bell family. In 1888, flood waters swept away the dam, stopping the wheels of the mill. Mr. and Mrs. Jasper Bell donated the land for the present park as a memorial to pioneers who settled this area.

The second bridge downstream from Bell's Mill is Vegors Bridge. High on a scenic hill to the north and west is **Vegors Cemetery**, a historic spot of early Indian and white burial.

Canoeists can end their trip on the Boone River a short distance above the confluence with the Des Moines River, at the Boone Forks Wildlife Management Area.

DISTANCE

Webster City to the Des Moines River

Distance from Previous Access to Next Access

	<u>Access Name</u>	<u>Location</u>
0 miles	1. Riverside Park	Webster City
